

# UTF-8 Mathematical Operators

< Previous

Next >

Range: Decimal 8704-8959. Hex 2200-22FF.

If you want any of these characters displayed in HTML, you can use the HTML entity found in the table below.

If the character does not have an HTML entity, you can use the decimal (dec) or hexadecimal (hex) reference.

## Example

```
<p>I will display &sum;</p>
<p>I will display &#8721;</p>
<p>I will display &#x2211;</p>
```

Will display as:

```
I will display Σ
I will display Σ
I will display Σ
```

Try it Yourself »

Older browsers may not support all the HTML5 entities in the table below. Chrome and Opera have good support, and IE 11+ and Firefox 35+ support all the entities.
